Main Page

Probably best if short and concise

Hello, Username!

Account(s) Breakdown:

Account 1	Balance
Account 2	Balance
Account 3	Balance

Savings Goal(s)

Current amnt: \$X Goal: \$Y % to goal: Z%

Budget Plan:

Limit: \$A	Spent: \$B
remaining: \$C	

Monthly bills, rent, etc
can be placed in here
as ~~well~~ well

* A Spending Breakdown in the form of a graph
can be displayed. That means that users ~~can~~ have
to enter type of purchase.

* Forgot to show debt payoff but it can be displayed
on this page similar to savings goal *

Account # Breakdown

Transactions:

Transaction 1	Amount
:	\$x
:	
:	
Transaction X	

- Button: Add Trans → should open pop up box asking for amt
- Button: Edit Trans → get transaction # to edit then re-enter amt for transaction
- Button: Remove Trans → get transaction # and remove and calculate new balance

Transactions should automatically calculate new balance upon entering

* This page will open when an account is selected and will display contents of that account *

Savings Goal

Goal 1: \$goal \$saved % saved

:

Goal #

Button:

Button:

Button:

This should be short and simple. ~~Can't edit~~

~~Can't~~

The edit button should allow user to edit \$saved

Budget Breakdown

Enter Income:

Enter Bill:

Type	Amount

Once all bills have been entered a graph picture should be displayed / updated accordingly
